Flying up Havelock River look for the Growler Hut. The point is located in a ridge between the next two streams (going North) coming into the SW side of the Havelock River. The ridge is easy to spot because it is noticeably lower than the surrounding ones. The point is located on the first flat area from the start of the ridge. Ridge has pointed summit at NE end, mark is half way along flattish section of ridge. Helo landing possible at site.

For each block of downloaded files there will be an earliest and latest file downloaded, plus the total number of files downloaded. Typically there will only be one download block per occupation. Occasionally a receiver will be downloaded several times during an occupation (eg during an extended semi-cGPS occupation). In this instance there will be multiple earliest, latest, and number of files downloaded. These are summarised in the comma delimited lists above.
