Site & Access Details

Access and Location Description

Helicopter access. Located on Haszard Ridge, just south of Mt Haszard. The SE arete leading from the summit of Mt Haszard forms a small saddle about 0.5km from the summit, with a small subsidiary high to the SE of the saddle. The mark is located in an obvious slab outcrop located at the SE end of the saddle and close to the break in slope leading up to the subsidiary high. From the saddle there is a good view of a small tarn about 0.5km to the SW.

Latest Filenames Downloaded	70180860.t01
Numbers of files Downloaded	4

For each block of downloaded files there will be an earliest and latest file downloaded, plus the total number of files downloaded. Typically there will only be one download block per occupation. Occasionally a receiver will be downloaded several times during an occupation (eg during an extended semi-cGPS occupation). In this instance there will be multiple earliest, latest, and number of files downloaded. These are summarised in the comma delimited lists above.
